Professional Summary

I'm a passionate and experienced Full Stack Web Developer with over 6 years of experience building robust, scalable, and user-friendly web applications. My skillset spans the entire stack from creating beautiful front-end interfaces with React and Bootstrap, to architecting powerful back-end systems using PHP (Laravel/Magento), Node.js (Express), and MySQL/MongoDB. I thrive in fast-paced environments and bring a proactive mindset, strong problem-solving skills, and a commitment to clean, efficient code. I am open to work remotely from UK.

Core Skills

- Front-End: HTML5, CSS3, JavaScript, jQuery, Bootstrap, React.js
- Back-End: PHP (Laravel, Magento), Node.js (Express), REST APIs
- Database: MySQL, MongoDB, SQLite
- Tools: Git, Bitbucket, AWS, Atlassian, Cron Jobs, XML, AJAX
- Other: React Native, Unity (C#), Microsoft 365 setup, Windows Configuration

Professional Experience

Full Stack Web Developer

AM&M (Accelerated Mail & Marketing), UK

Nov 2022 – Present

- Developed and maintained customer portals using PHP, MySQL, HTML, CSS, jQuery, and Bootstrap.
- Managed server infrastructure with AWS and handled portal security.
- Integrated and maintained Magento for client-specific e-commerce solutions.
- Created and managed APIs, automated tasks with cron jobs, and handled complex data processing (CSV, XML).
- Provided IT support including Windows 11 setup, printer config, and Microsoft 365 installation.
- Used Bitbucket and Atlassian tools in an agile development workflow.

Freelance Full Stack Developer

White Hat Dev

Aug 2020 – May 2022

- Delivered custom websites and portals using Laravel, React, and Express.
- Built responsive and interactive UI components and integrated RESTful APIs.

- Collaborated directly with clients to gather requirements and deliver tailored solutions.

Web Developer

AWCC Telecom, Afghanistan

May 2019 – Aug 2020

- Worked on the official AWCC website and portals using Laravel, PHP, jQuery, HTML5, and Bootstrap.
- Focused on performance optimisation, UI improvement, and feature enhancements.

Customer Care Agent

AWCC Telecom, Afghanistan

Dec 2018 – May 2019

- Assisted customers with billing, technical, and general queries.
- Developed strong interpersonal and customer service skills.

English Teacher

Azeraksh Institute, Afghanistan

Jan 2016 – Oct 2016

- Taught English language and grammar to students.
- Created lesson plans and helped improve students' speaking and writing skills.

Education

- High School Diploma, Habibya High School (Home of Legends) – 2005 to 2017
- English Literature Course, Azeraksh Institute – 2016

Projects

- Sun Gym CMS – Developed a full CMS system for internal operations and gym management. Using modern technologies (jQuery, PHP & MySQL).
- MobileVan Tyre Fitting Business – Currently building a customer-facing online platform for bookings and mobile services. Using modern front-end techs.

Work Projects

- **CIPD Certificate Portal – Magento (AM&M):**
Built a custom portal where users can generate and download **CIPD certificates in ZIP format**. Analyzed and designed the database to be smooth and fast response.
Developed backend logic to dynamically generate PDF certificates
- **Client-Specific Portals AM&M:**
Designed and built **over 10 client-specific portals** Each portal supported features like document uploads, live reporting, and user access management Implemented tailored client branding and user roles.
- **Surrey Heath Council 2FA Integration:**
Integrated **Two-Factor Authentication (2FA)** using **Okta** into a secure portal used by the council Worked closely with internal security teams to ensure compliance.
- **Internal Operations Dashboard AM&M:**
Designed and rebuilt full internal dashboard for the company to manage and monitor internal operations across departments
Rebasing and restructuring the existing company database to support dashboard-specific metrics and custom reporting
Visualized key data like **job sheets, booklet counts, print types**, and more using dynamic, real time charts
Created **user-friendly UI** for non-technical staff, improving transparency and decision-making across teams.
Automated backend processes using **cron jobs** for daily updates without manual input

Soft Skills

- Excellent verbal and written communication
- Skilled in translating technical concepts for non-tech stakeholders
- Strong team leadership and coordination
- High adaptability in fast-paced environments
